Creamy Oreo Milk Shake

Ingredients

4 Oreo cookies

2 cups vanilla ice cream

1 cup milk (dairy or plant-based)

1/2 teaspoon vanilla extract

1. Begin by placing the Oreo cookies, vanilla ice cream, milk, and vanilla extract into a blender.

2. Blend all the ingredients together until smooth and creamy. If the shake is too thick, you can add more milk a little at a time until you reach your desired consistency.

3. Taste the milkshake and adjust the sweetness if needed. If you prefer a sweeter shake, you can add a bit of sugar or more Oreo cookies.

4. Once blended to your liking, pour the Oreo milkshake into glasses.

5. If desired, you can garnish the milkshake with whipped cream and additional crushed Oreo cookies on top for extra indulgence.

6. Serve immediately and enjoy your delicious Oreo milkshake.
